STOCK MARKET GUIDE

FOR KIDS & TEENS

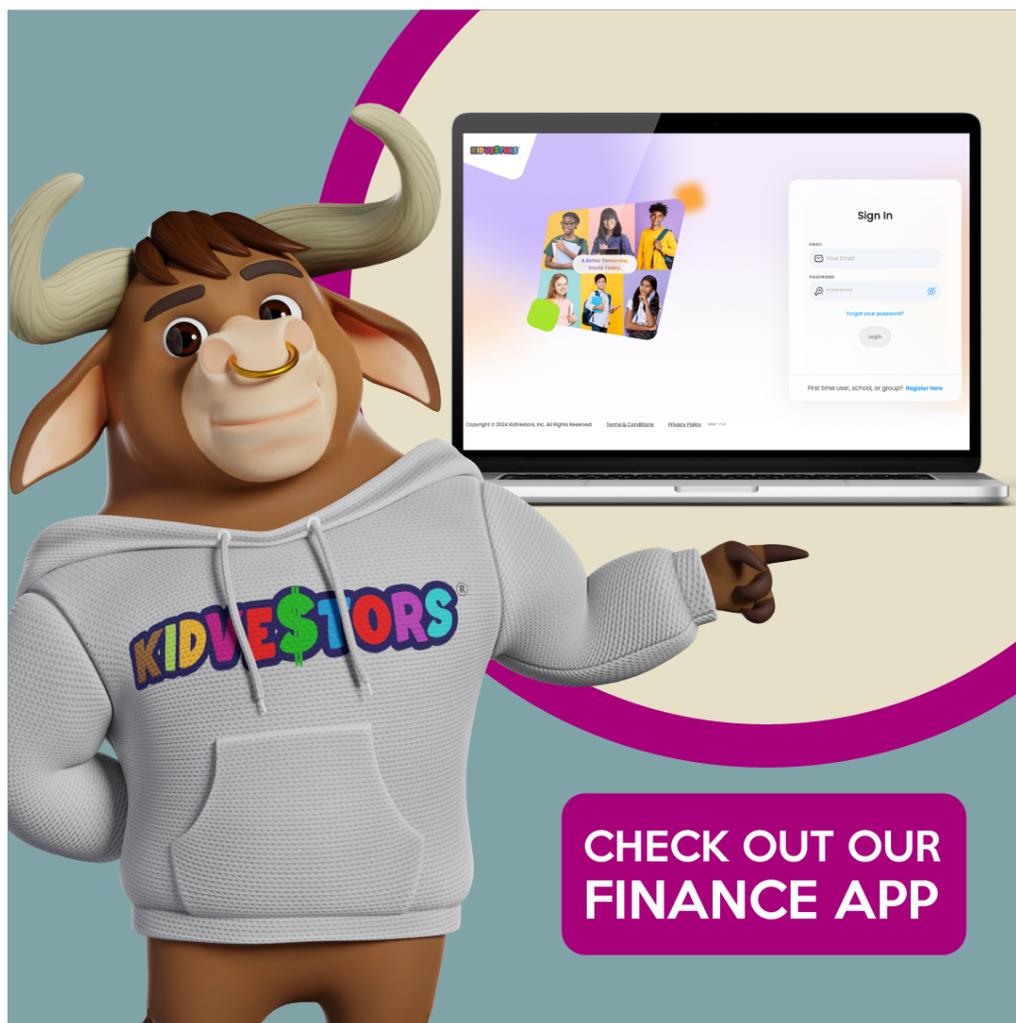

STOCK MARKET GUIDE

INSTRUCTIONS

1. Use online resources such as the [KidVestors App](#), [Yahoo Finance](#), [MarketWatch](#) or [Google Finance](#) to research a different company stock every week.
2. Using a pencil, have your student create a wishlist by choosing five stocks, index funds or ETFs (Exchange Traded Funds) that they will begin tracking weekly. *(Students can also create their wishlist virtually and practice trading via our [stock market simulator](#) within our app).*
3. Complete the stock watch worksheet at the end of this guide for each of their five selections. *(You can make copies for each stock).*
4. Have your student update the share price every weekday, Monday – Friday, at open and close (9:30am EST to 4:00pm EST).
5. Make sure your student notes if the stock price went up or down.
6. Complete the stock market tracker for each of their selections each week for four weeks.

WELCOME TO THE STOCK MARKET

Welcome To The Stock Market teaches students how to maximize their time by showing them how to prioritize paying themselves *first* through saving and investing their money. Teens will learn core fundamentals and how to navigate the stock market in a way they can understand and immediately apply.

Following completion, students will be able to:

- Explain how the stock market works
- Understand the risks & benefits of investing
- How to identify bull & bear markets
- Explain the importance of investing in assets that allow money to grow over time
- Understand how to diversify their assets
- And much more!
